"Your Journey to a Sustainable Future Begins Now!"

Subject Matter Expert

"**Ms. Shubhi Goel**, a strong Subject Matter Expert on Carbon Markets, brings nearly **5 years of industry experience** across policy suggestions, climate finance and consulting organizations, the last of which was with **Carbon Markets Association of India as a Joint Secretary for carbon markets consulting**. Her focus is currently on the carbon markets domain, where she studied the different market instruments present and the significance of their environmental integrity and boundaries. Her work involves analysing the design features for an effective and successful Emission Trading Scheme in India.

She holds a master's degree in **Climate Science and Policy from the TERI School of Advanced Studies**. Earlier, she was working with the Earth Science and Climate Change Division which undertakes research in various climate change fields at TERI. Her work broadly revolves around international climate policy, negotiations, cooperation, transparency, carbon markets, CBAM and climate finance. Her niche areas of expertise also include **International Climate Finance, Carbon Markets, CBAM and Industrial Decarbonization**.
